

Presents **2012 Water & Sewer  
Construction Inspection Course**

This course provides a basic overview of inspection requirements for sewer and water construction. It is taught from the Inspection Manual for Sewer and Water Construction which was prepared by the IWEA Collection Systems Committee and IUPUI. Each person successfully completing the course (70% or higher on the final exam) will receive a Certificate from the IWEA.

**Who Should Attend:** The course is intended for people involved in construction inspection or construction supervision, whether employed by a municipality, engineering firm, utility or construction firm.
