Question 1

- **I have heard that there is a new nutrient regulation that seeks to restrict discharges.**
- **Could you briefly address this?**
 - **Natalie - IDEM**

Question 2

- **I am still concerned about the restrictive limits on Copper. Is there any way to get a variance from the numbers?**

- **Natalie - IDEM**

Question 3

- **Why do I need a slug plan when I don't have to have as SPCC?**
 - **Rodger - Kokomo**

Question 4

- **What are you looking for in a slug plan and is there a model to use?**

Rodger - Kokomo

Question 5

- **Could you briefly discuss the process if you are in an enforcement action with a city and any appeals or legal action that might happen?**

Dave - Goshen

Question 6

- **My POTW just got a new permit with a new limit for Mercury? The limit is 3.2 parts per trillion. We don't have any industries in town that use mercury yet we can't consistently meet this new limit. Is there anything we can do?**

Dave - Goshen

Question 7

What procedures should be followed for sampling QC?

Pam - Marion

Question 8

**What do I need to submit for my
priority pollutant monitoring
and when?**

Pam - Marion

Question 9

What needs to be included in my annual report regarding the priority pollutant results?

Pam - Marion

Question 11

The Pretreatment Program addresses hazardous waste. What are the POTW and generator responsibilities?

Tom – BWQ - Muncie

Question 12

I have a pH sample that takes more than 15 minutes to stabilize. Can I correctly measure the pH for compliance purposes?

Tom – BWQ - Muncie

Question

Floor

Sue Claussen
Michigan City

Question 13

I do not have any drawings for my sewer lines as they were put in years ago.

How do I get schematics for the slug plan?

Rodger - Kokomo

Question 14
